

# HealthHub medical clinic

## 1. Introduction

### 1.1 Overview:

HealthHub is a hub for continuous care. We provide accessible, integrated health management supported by smart solutions in a casual, happy and insight-driven environment.

Our lifestyle greatly impacts our health. We want to inspire and encourage wholesome wellbeing.

### 1.2 purpose:

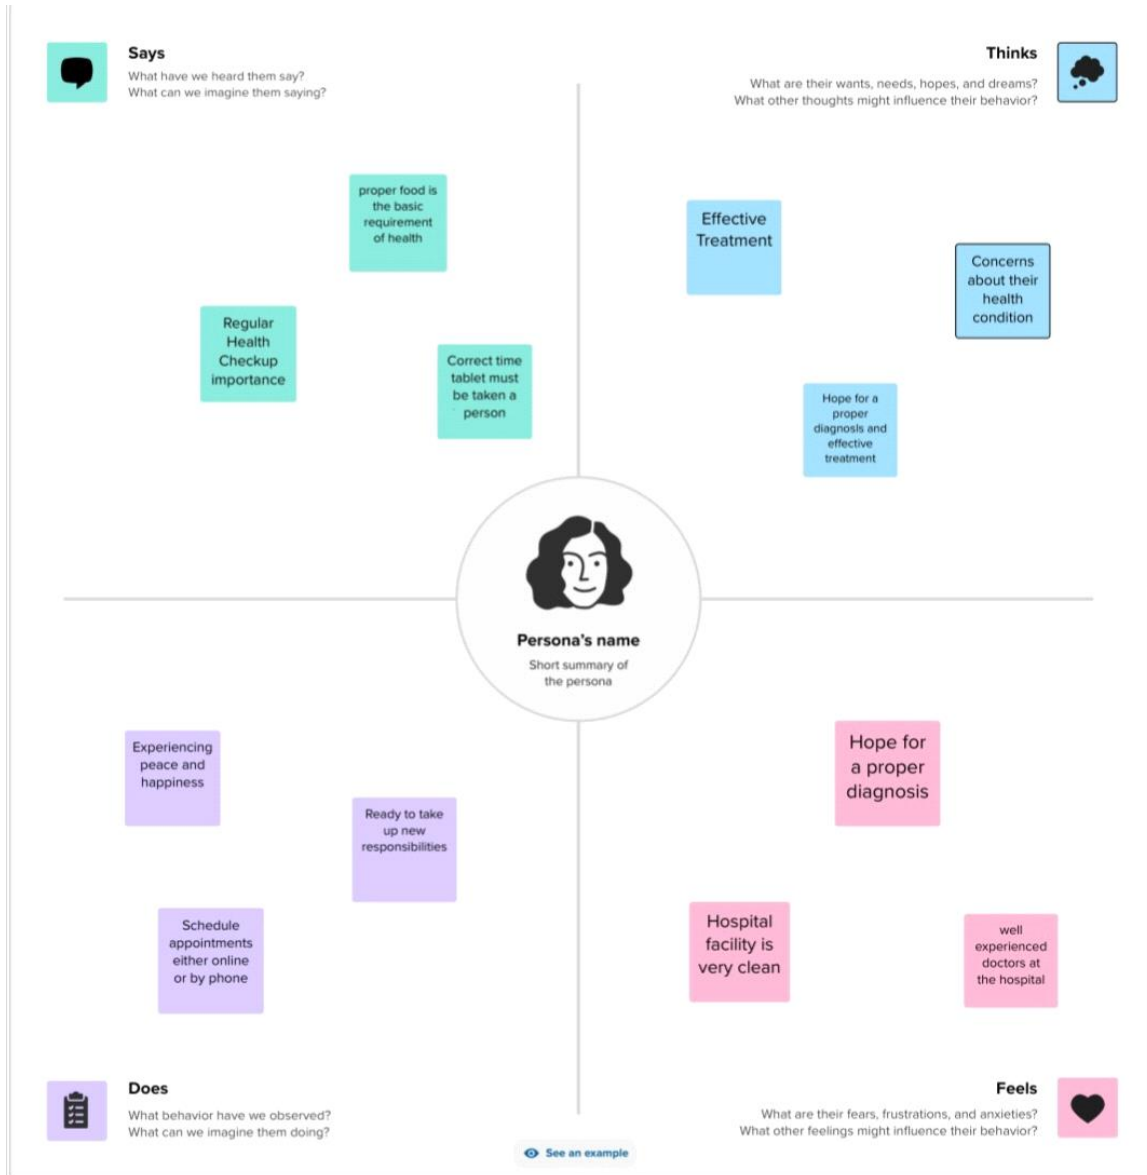

A health hub is a centralized location where various health-related services and resources are available to the public.

It is a concept that brings together different healthcare providers, community organizations, and public health agencies to provide coordinated care and support for individuals and

communities.

## 2. PROBLEM DEFINITION & DESIGN THINKIN

### 2.1 Empathy map

### 2.2 Ideation & Brainstorming

## Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 🕒 10 minutes to prepare
- 🕒 1 hour to collaborate
- 👤 2-8 people recommended

### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

#### A Team gathering

4

#### B Set the goal

complete the keeping up with my goal handout if there are barriers to accomplishing the goal

#### C Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

### Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

**PROBLEM**  
Rising elderly and lifestyle risk factors, huge variations in infrastructure across states and low health insurance penetration

#### Key rules of brainstorming

To run a smooth and productive session

- ➕ Stay in topic.
- 💡 Encourage wild ideas.
- ⏸️ Defer judgment.
- 👂 Listen to others.
- 🗣️ Go for volume.
- 👁️ If possible, be visual.

2

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

**TIP**

You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

#### Person 1

does not state or imply a solution

Specific enough to be solvable in the given time frame

With available resources or competencies

#### Person 2

The find and talk to the people who you believe have the problem

How frequently does the problem cause a problem for you

What value would you gain if this problem was solved

#### Person 3

Who was the problem

I have the team develop their own problem statement

Need to be concise

#### person 4

Thea second step (as to have each individual answer the why and what we liked to them

Ask for people to list problems, challenges, friction in the system

The first step is to brainstorm the problem

### 3. ADVANTAGES & DISADVANTAGES

#### Advantages:

##### Connectivity-

The primary function of the hub is to permit clients to attach to a network in order that they will share and have conversation.

##### Performance-

Hub is understood for having very less number of performance impacts on the network.

#### Disadvantages:

Fresh and Locally- sourced ingredients

personalizes service

support for the Local economy

Limited Resources

Reduced Carbon footprint

## 6. CONCLUSION

Hospitals are very important for us as they offer extensive treatment to all. Moreover, they are equipped with medical equipment which helps in the diagnosis and treatment of many types of diagnosis and treatment of many types of diseases. Further, one of the most important functions of hospitals is that they offer multiple healthcare professionals.

## 7. FUTURE SCOPE

A health hub is a centralized location that provides a variety of healthcare services and location, such as a....
